Choose your activity goal

Step 1: Work out how many people will take part in the walk-a-thon

Step 2: Work out how many laps each student can do. Multiply number of students by average number of laps to establish goal

Step 3: Establish a fundraising goal

Step 4: Come back here to sign up individual teams within a school

Dashboard

The dashboard is for your internal use. You can view how many funds you have raised as a team and as a school. You can also record how many laps your team has completed. There is a QR code which you can download so that people can access your fundraising page easily. You will find the walk-a-thon calling card and poster, which we encourage you to print and hang around the school with your QR code. Finally, you are able to write blog posts to share with other schools and the foundation. We'd love to hear about your fundraising journey and, of course, the event itself.

Profile

Your profile is a public page and has information such as how many funds you've raised, how many laps have been walked and your blog posts. This is where donors can sponsor your team so you can share the link with potential donors. Donors have until 24th June to donate.

Leader Board

The leader board shows up to date information about which schools and teams have raised the most funds and walked the most laps. There are two leader boards for fundraising (teams and schools) and two leader boards for walking laps (teams and schools).
